Relationships are at the centre of all we do, they enable us to create a distinctive ethos based upon our Christian beliefs.

We work together so that:

Every child and adult is valued, that their own unique qualities are recognised.

Learning is an exciting and dynamic experience for us all.

Our children develop the skills and abilities to be lifelong learners.

Our children achieve their full potential, both academically and socially.

Our children build resilience and character to make a positive contribution to the school and community.

Our children contribute actively to the development and improvement of our school.

Our children have self respect, confidence and a sense of responsibility for their own well being and for that of others and the environment.

Our children make good choices, considering the impact upon themselves and others.

Caring for all...Growing with God
